EDUCATION

BSA College Of Engineering And Technology

Bachelor's of Technology (CSE) (CGPA: 7.5)

Oct 2021 – Oct 2025

Mathura, Uttar Pradesh

Kanha Makhan Public School

Intermediate (Percentage: 70%) — High School (Percentage: 84%)

Mathura, Uttar Pradesh

TECHNICAL SKILLS

- **Data Structures and Algorithms**
- **Languages:** JavaScript, Python, Java, HTML, CSS
- **Frontend:** ReactJS, Next.js, TailwindCSS, GSAP
- **Backend:** Node.js, Express.js, MongoDB
- **Auth & Payments:** Clerk, Stripe, Razorpay
- **Developer Tools:** VS Code, Git, GitHub, Docker, Shadcn/UI

PROJECTS

Genius AI SaaS Platform 🔗 | **Next.js, API(s), Clerk, Shadcn/UI, Stripe**

January 2026 - March 2026

- Developed a multi-functional AI SaaS platform utilizing the **API** for advanced content generation, including text, audio, images as well as code.
- Engineered secure user authentication and authorization using **Clerk**, protecting user data and managing access to features.
- Integrated a payment gateway to manage subscriptions for paid features and built a modern, responsive UI with **Shadcn/UI**.

Roodmates 🔗 | **Next.js, Tailwind CSS, MongoDB, Clerk, Resend-API, Razorpay**

April 2026

- Developed a full-stack food subscription platform for students and working professionals with weekly and monthly meal plans.
- Implemented Clerk-based authentication with webhook-triggered MongoDB sync, eliminating manual user data reconciliation and ensuring 100% consistency between auth and database records
- Built real-time owner notifications via email using **Resend API** and designed a user dashboard with active plan details, delivery address, and subscription validity tracking.
- Integrated **Razorpay** payment gateway for secure online subscription payments with webhook verification and automatic plan activation.
- Deployed the application on **Vercel** with responsive UI design using **Tailwind CSS** to ensure seamless performance across devices.

Portfolio Website 🔗 | **ReactJS, TailwindCSS**

August 2025

- Designed and developed a personal portfolio website to showcase projects, skills, and achievements in a professional manner.
- Implemented responsive design using **TailwindCSS**, ensuring seamless accessibility across devices.
- Added smooth animations, interactive components, and project sections to enhance user engagement and experience.

Task One – Task Management Application 🔗 | **ReactJS, TailwindCSS**

October 2024

- Built a task management app in React with role-based authentication for admin and employee interactions using JSON data.
- Enabled task assignment, acceptance, and rejection workflows, along with auto-clearing popup notifications for improved user experience.

Todo List 🔗 | **ReactJS, TailwindCSS**

August 2024

- Developed a fully functional to-do list application using React, enabling users to add, update, delete, and mark tasks as complete.
- Employed local storage to persist tasks, ensuring data retention across sessions.
- Followed component-based architecture principles for reusability and maintainability of the application.

Currency Converter | ReactJS, TailwindCSS, REST API

July 2024

- Developed a currency converter application using React to practice API integration and state management.
- Fetched real-time exchange rates from a public REST API and displayed accurate currency conversions.
- Designed a clean and responsive interface with **TailwindCSS** for a seamless user experience across devices.

EXPERIENCE

Iquincesoft Pvt. Ltd.

Feb 2025 – Present

Junior Software Developer

On Site

- * Built and integrated 8+ dynamic forms and multiple reusable UI components across the platform in Next.js, handling client-side validation, state management, and data submission for varied business use cases.
- * Developed CMS-driven content pages and data-display dashboards in Next.js, fetching and rendering data from backend endpoints to ensure accurate, real-time content delivery.
- * Developed and customized WordPress themes and plugins, and performed ongoing maintenance and bug fixes to improve site stability and performance.
- * Identified and resolved recurring bugs and errors across web applications, improving overall application reliability, and deployed Next.js applications to Vercel.
- * Collaborated directly with clients and designers to translate requirements into functional features, and participated in code reviews to maintain a high-quality, maintainable codebase.

EXTRACURRICULAR

- **Sports Week (2022):** Represented CSE Branch with a stellar performance.
- **Fest Management (2022):** Organized and contributed as a core team member.

CERTIFICATIONS

- Python - OneTick Technologies Pvt. Ltd., Faridabad, India
- Participant in Google Hash Code Competition - BSA College of Engineering and Technology, Mathura
